

Abundance Raised Planter Box

Model Number

AP-26 (2 ft x 6 ft)
AP-46 (4 ft x 6 ft)

Enjoy an abundance of compliments as flowers burst with colour and vegetables thrive in the Wishbone Abundance Raised Planter Box . Designed for beauty, durability, and sustainability, this modern no-maintenance planter brings together recycled plastic boards, a robust aluminum frame, and stainless-steel fasteners—delivering decades of reliable performance without the splinters, rot, or upkeep associated with wood. Each planter diverts the equivalent of 320 plastic food and beverage containers from the landfill, helping keep nature happy while also protecting your plants. Unlike pressure-treated lumber, our 100% recycled plastic material contains no harmful chemicals, ensuring vegetables and flowers can grow in clean, safe soil. And because the planter itself is non-porous and non-degrading, no liner is required. Thoughtfully engineered for convenience, the Abundance Raised Planter Box ships flat and can be assembled in as little as 10 minutes. It features an open-bottom design , allowing for proper drainage and natural soil integration. In areas where ground roots are prevalent, simply add commercial-grade landscape fabric before filling. At the end of the growing season—or for portable or temporary installations—the planter is just as easy to disassemble, relocate, or store until spring. A raised garden bed has never looked so good. Available in 2' x 6' and 4' x 6' sizes, with custom options available to suit unique spaces or landscape requirements. Grow more. Worry less. And enjoy the abundance.
