

John Wheelchair Accessible ADA Building

Model Number

PTR-6J (Jumbo)

Developed in collaboration with parks departments seeking a modern alternative to traditional wood outhouses, The John Wheelchair Accessible Outhouse sets a new standard for outdoor restroom design. As a larger version of our popular Jumbo model, it fully meets ADA requirements in the U.S., ensuring accessibility, comfort, and dignity for all users. Engineered to solve the common challenges of semi-remote installations—such as transportation, handling, assembly, and maintenance—The John delivers exceptional performance and longevity in virtually any environment. Its modular design allows components to be easily carried and assembled on-site with minimal tools, offering a cost-effective solution compared to conventional wood or concrete structures.

Constructed from lightweight, powder-coated aluminum and tongue-and-groove recycled plastic lumber, this structure is built to last. It resists corrosion, rot, and moisture absorption, and can be safely cleaned with bleach or disinfectants without risk of damage. The raised wall design allows excess water to drain freely, while panels fit seamlessly into channels with concealed fasteners—making the unit both sleek in appearance and highly tamper-resistant.

Lighting, often a challenge in outdoor facilities, is addressed through a translucent, one-piece roof that fills the interior with natural light without compromising strength. This roof also provides full protection from the elements and unifies the structure into a solid, weather-tight enclosure.

Durable, practical, and thoughtfully designed, The John Wheelchair Accessible Outhouse offers an ideal blend of accessibility, low maintenance, and long-term value—an innovative solution built to perform in even the most demanding outdoor settings.

Material Specifications

Marine Grade Aluminum Frame
Stainless Steel Hardware
Super Durable Powder Coating
100% Recycled Plastic Slats
Western Red Cedar
Accoya Modified Pine
Hardened Bamboo

Recycled Content

Recycled Content by Weight: 65%
100% Recyclable

Customized Solutions

Custom Powder Coating (Setup Charges May Apply)
Toilet, urinal, toilet paper dispenser, sanitizer dispenser and vent stack are not included.
All Aluminum Floor. (ALF-WC)
Waterless Toilet System by Toilet Tech.

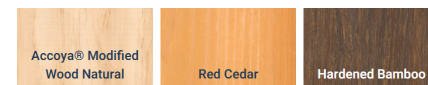

Product Dimensions

Height: 99.5 inches / 253 cm
Depth: 80 inches / 204 cm
Width: 68 inches / 173 cm
Weight: 1650 lbs / 748.5 kg

100% Recycled Plastic Lumber Colours

Unstained Natural Wood Alternatives

OVER 30 POWDER COATING COLOURS

*Premium powder colours incur a surcharge per item
